Space Policy

Index to Volume 8

No 1 February 1992, No 2 May 1992, No 3 August 1992, No 4 November 1992

Articles – titles

Australia's space heritage, Matthew L. James, 8.4, 315–324
Bringing space policy into the Information Age: Earth observations and the care ethic, Joanne Irene Gabrynowicz, 8.2, 167–175
Estimating the life cycle cost of the Space Exploration Initiative, Richard L. Webb, 8.1, 49–64
From Halley's Comet to solar terrestrial science: the evolution of the Inter-Agency Consultative Group, Joan Johnson-Freese, 8.3, 245–255
International cooperation in lunar and space development: Japan's role, Chikako Iguchi, 8.3, 256–268
Interpreting and reporting on a SETI discovery: we should be prepared, Donald E. Tarter, 8.2, 137–148
Mission to Planet Earth and global space education policy, Thomas W. Becker, 8.2, 149–158
Not the sons of Adam: religious responses to ETI, Michael Ashkenazi, 8.4, 341–349
Organizing large space activities: why the private sector model usually wins, Joseph N. Pelton, 8.3, 233–244
Performance as promised: restructuring the US civil space programme, Ronald D. Brunner, 8.2, 116–136
Priorities for global ecology now and in the next century, K. Kondratyev, J. Ortner and O. Preining, 8.1, 39–48
Project 21 – a vision for the 21st century, Olof Lundberg, 8.1, 65–69
Reflections on the quest for international cooperation, George van Reeth and Kevin Madders, 8.3, 221–232
Supplying Earth-observation data from space, Molly K. Macauley and Michael A. Toman, 8.1, 16–22
The meaning of Japan's space commercialization efforts, Hiroshi Yoshida, 8.4, 325–339
The new challenge for space in Russia, Mikhail Ya. Marov, 8.3, 269–279
The next century – prospects for space, Larkin Kerwin, 8.1, 23–28
The potential of direct broadcast satellites for the USA, Leland L. Johnson and Deborah R. Castleman, 8.4, 351–361
The Space Exploration Initiative: perspectives from the US space science community, Marc S. Allen, 8.4, 307–314
The UK Parliamentary Space Committee: the emergence of a space lobby?, Mark Williamson, 8.2, 159–166
The US civilian space programme: charting a new course, Ray A. Williamson, 8.4, 295–306
Thoughts on international space cooperation and interests in the post-Cold War world, Kenneth S. Pedersen, 8.3, 205–220
US–Soviet cooperation in space – benefits, obstacles and opportunities, Edward Crawley and Jim Rymarcsuk, 8.1, 29–38

Articles – authors

Allen, Marc S., *The Space Exploration Initiative: perspectives from the US space science community*, 8.4, 307–314
Ashkenazi, Michael, *Not the sons of Adam: religious responses to ETI*, 8.4, 341–349
Becker, Thomas W., *Mission to Planet Earth and global space education policy*, 8.2, 149–158
Brunner, Ronald D., *Performance as promised: restructuring the US civil space programme*, 8.2, 116–136
Castleman, Deborah R., *see* Johnson, Leland L.
Crawley, Edward, and Jim Rymarcsuk, *US–Soviet cooperation in space – benefits, obstacles and opportunities*, 8.1, 29–38
Gabrynowicz, Joanne Irene, *Bringing space policy into the Information Age: Earth observations and the care ethic*, 8.2, 167–175
Iguchi, Chikako, *International cooperation in lunar and space development: Japan's role*, 8.3, 256–268
James, Matthew L., *Australia's space heritage*, 8.4, 315–324
Johnson, Leland L., and Deborah R. Castleman, *The potential of direct broadcast satellites for the USA*, 8.4, 351–361

Yoshida, Hiroshi, *The meaning of Japan's space commercialization efforts*, 8.4, 325–339

Reports/Viewpoints

Buying Russian technology – pros and cons for the US programme, Marcia S. Smith, 8.4, 362–366
Converting aviation and aerospace technologies to civilian use, Karl-Heinz Böckstiegel, 8.3, 280
Crossroads in space, Duncan Lunan and Bill Ramsay, 8.1, 3–8
Earth observations in Europe – growth and prospects, Euroconsult, 8.1, 70–81
Exploring the Moon and Mars, OTA, 8.1, 82–86
Extending the EC's role in space, Roy Gibson, 8.1, 81–82
Interspace – design for an international space agency, Bruce Cordell, 8.4, 287–294
ISMA – will it ever happen?, Bhupendra Jasani, 8.1, 13–15
Free trade and the commercial launch industry, Jack Scarborough, 8.2, 109–110
International cooperation in space – new opportunities, new approaches: an assessment, Space Policy Institute and Association of Space Explorers, 8.3, 195–204
ISY, SETI and the new search for El Dorado, Jeremiah Creedon, 8.3, 192–194
Prospects for international space cooperation in the Pacific Basin, Brenda Forman, 8.2, 111–115
Space nuclear power and the UN – a growing fiasco, Steven Aftergood, 8.1, 9–12
The US government civil space programme: it must be changed fundamentally and soon, T.F. Rogers, 8.2, 103–108
UN participation in ISY, Adigun Ade Abiodun, 8.1, 86–90

Book Reviews (author, title, reviewer)

Bhathal, Ragbir, and Graeme White, *Under the Southern Cross*, Jeff Kingwell, 8.1, 92–93
Bulkeley, Rip, *The Sputniks Crisis and Early United States Space Policy*, John M. Logsdon, 8.4, 367
Collins, Martin J., and Sylvia D. Fries (eds), *A Spacefaring Nation*, Michael A.G. Michaud, 8.2, 176
Goldman, Nathan C., *Space Policy: An Introduction*, James A. Vedda, 8.4, 368–369
Gorove, Stephen, *Developments in Space Law: Issues and Policies*, Lucy Stojak, 8.4, 367–368
Jasani, Bhupendra (ed), *Peaceful and Non-Peaceful Uses of Space*, F. Lyall, 8.2, 178
Mack, Pamela E., *Viewing the Earth*, Jeff Kingwell, 8.2, 177–178
Mackenzie, Donald, *Inventing Accuracy*, David Green, 8.3, 281–282

Editorials/Letters to the Editor

Boldly going together, Frances Brown, 8.3, 190
NASA considers asteroid threat, Duncan Lunan, 8.4, 366
Need we protect Earth from space objects and if so, how?, Duncan Lunan, 8.1, 90–91
UK policy and reducing the cost of human spaceflight, David Ashford, 8.1, 91–92
